<p><i>Please Note:</i> <i>Industry classification is based on Business Activity descriptions provided by the Bureau of Revenue, Customs & Taxation.</i></p> <p><i>The Office of Planning & Statistics assists with the classification; however, the Bureau of Revenue, Customs & Taxation is responsible for all Gross Revenue Tax statistics reported.</i></p>			

MARCH 2008 QTR KEY POINTS

Source: Bureau of Revenue, Customs & Taxation

The GRT figures reported from the referenced source are sorted by the filing date on which employers file their Gross Revenue Tax with the Bureau of Revenue, Customs & Taxation and may not reflect the exact values reported by the National Treasury which is responsible for tax collection.

- A total of approximately \$2.8 million dollars in business gross revenue tax (GRT) were collected in the 1st quarter of 2008. This represents about 27% of gross revenue taxes collected last year.
- Last year, a total of approximately \$10.2 million in Gross Revenue Taxes were collected.
- An annual comparison shows that the level of GRT collected has risen 9.2% from the same period last year. *The Manufacturing industry seems to have risen by a whopping 430%; however, this may be due to classification differences when categorizing companies into the different industries.*
